About DentSpa Dental Clinic

Recognized as one of the top facilities in Turkey, the award-winning DentSpa Dental Clinic offers a wide range of services to international patients seeking world-class care at affordable rates. Located in the upscale Teşvikiye district of Istanbul, the clinic works with a team of highly skilled specialists in implantology, prosthodontics, periodontics and oral surgery.

About the Clinic

DentSpa has welcomed over 50,000 international patients, making it a well-established name in Turkey's dental tourism industry. In addition, Dentspa's head offices are based in London, allowing for streamlined travel coordination and convenient aftercare – reducing the need for return visits to Turkey.

A multilingual team is also available to assist at every stage, making the process as straightforward and comfortable as possible.

The clinic focuses on combining health, function, and aesthetics to provide high-quality dental care tailored to each patient's needs.

With a team of experienced specialists, including Ph.D.-qualified doctors and professors, DentSpa provides a full spectrum of treatments, from routine care to complex procedures, such as same-day implants and Hollywood smile makeovers.

Facilities & Services

Located in a modern facility, DentSpa's modern interior creates a calming environment where guests can relax and enjoy a stress-free dental experience.

To enhance comfort during treatment, patients can watch their favorite movies on TV or unwind with soothing music. For families,

the clinic also offers a dedicated play area for children, ensuring a pleasant visit for both young patients and their companions.

Award-Winning Clinic

DentSpa was recently named Best Clinic in Dentistry in the category of Odontology at the 2024 European Awards in Medicine.

Held on November 28, 2024, the event celebrated leading medical professionals and institutions across Europe – with DentSpa chosen from thousands of other entries. This recognition highlights the clinic's dedication to excellence and a patient-centered approach to care.

Meet the Team

DentSpa Dental Clinic's experienced team of professionals brings expertise across multiple specialties, including prosthodontics, implantology, oral surgery, endodontics, periodontology, and cosmetic dentistry. With advanced qualifications such as Ph.D.s and specialization in maxillofacial surgery, they offer all kinds of dental solutions ranging from complex implant procedures and orthognathic surgery to aesthetic smile design and regenerative periodontal therapies.

Some of the top dentists at the clinic include:

- Dr. Madina Gulverdiyeva, a highly skilled prosthodontist with over 14 years of experience in advanced dental care. Holding a Ph.D. in Prosthodontics, she specializes in prosthetic restorations, implantology, oral surgery, and aesthetic dentistry. With expertise in facial aesthetic treatments, she is fluent in Azerbaijani, Turkish, English, and Russian.

- Dr. Bürkan Berkay Baş, an experienced prosthetic dentist with nine years of expertise in prosthodontics, oral surgery, implantology, and aesthetic dentistry. Dedicated to restoring both function and aesthetics, he provides personalized treatment plans tailored to each patient's needs. Fluent in Turkish and English, Dr.

Baş ensures a comfortable and professional experience for both local and international patients.

Treatments at DentSpa Dental Clinic

Some of the most popular treatments include full and partial mouth restorations involving the application of a full-arch fixed bridge attached to four or six titanium implants per jaw (also known as “All-on-4” or “All-on-6” full mouth implants).

Digital smile design, same-day implants, zirconia crowns, veneers, teeth whitening and invisible braces are also offered to help patients revitalize their smiles.

List of popular dental services:

- Celebrity Smile Design
- Same-Day Implants
- Laser Teeth Whitening
- Dental Bridges & Bridges
- Digital Smile Design
- Gingivitis Treatment
- Orthodontics, Including Clear Braces
- Conventional Dental Implants
- Immediate Implants
- Gum Disease Treatment
- Laser Dentistry
- Children’s Dentistry
- Facial Cosmetics With Botox® And Fillers

Clinic Location

Patients can easily reach this dental clinic thanks to its convenient city center location on the European side of Istanbul. The area boasts no shortage of posh hotels, world-class restaurants, trendy cafes, boutique stores, and indoor shopping centers.

A bustling dining and nightlife scene is best enjoyed around the popular Halaskargazi Street while the nearby Atatürk Museum displays a number of interesting exhibits. The imperial Ottoman

Ihlamur Kasrı palace is another must-visit attraction, known for its tranquil gardens.

How to Schedule Your Appointment

April 2025

Very good service. I came here for the first time for a General Consultation, filling and cleaning while my dad came here for the second time for a more complex treatment. I was amazed by the overall quality of service in this clinic. The doctors are very professional and take the time to do everything properly. I even had a question about the treatment done afterwards and they took me in and clarified everything with me. Amazing, very professional, they speak many languages and make everything possible for you to feel comfortable. Recommended.

March 2025

Just completed my full smile at DentSpa, the staff took great care of me and my teeth turned out exactly how I envisioned. Sam was my right hand man around the dental office and we will now be friends for life ! What an amazing experience! I wish for everyone to feel what it's like to have teeth as nice as mine are now.. if you are in need of dental assistance... DentSpa is the place

March 2025

I had heard about Dentspa on TikTok, but didn't really expect to come all the way to Turkey to use their dental services until one evening when I became very ill, lost consciousness, and woke up face flat on the floor. I had not only broken my nose but I had also broken my two front teeth! Since I knew Dentspa was able to give people a beautiful new smile quickly AND they had a sister company that could arrange the time I needed with a surgeon for rhinoplasty, I decided to give them the opportunity to give me a new smile and a new nose! Immediately upon arrival, I was impressed with how clean and accommodating the waiting area was at Dentspa. I went through the initial consultation and x rays with no issue, but then felt surprised by the quote I received. I initially came to Dentspa with the expectation of e-max veneers (the highest quality material), and communicated this before arrival over WhatsApp. Despite this, I was given a quote for the lowest grade material (zirconium) rather than e-max. This felt slightly misleading, for I had traveled thinking their quote was for the high grade e-max (which is the quote I had requested). After inspecting my teeth, it was determined that I didn't qualify for e-max anyways, so they offered the multi-layered zirconium and e-max. This still had a substantial price difference from the initial quote, but I decided to move forward nevertheless. Overall, I felt unhappy with this communication and feel as though the prices for each material option could have been better communicated BEFORE I traveled half way across the world. After deciding to move forward, I went through a series of X-rays, deep cleaning, grinding the teeth down, trying on the new veneers, and having the veneers updated with my desired changes. Each person I worked with was very professional. Some had very personable, good bedside manner while others felt a bit cold and distant (could very well be the language difference). For instance, there was zero warning before I was given a long series of novocaine shots... she just started shooting me up rapid fire! All the shots were intense, half of your face, it all of it, ends up asleep almost every visit! Plan on receiving about 80+ Novocain shots spread out over all of the days you are there to get a full set of veneers. It's something people should know and prepare for before going in! I was originally planning to come to Istanbul by myself and I'm incredibly thankful that I brought someone who's opinion I trust. Honestly I started to become

distrustful of the people at Dentspa at one point and it made me question if I was doing the right thing by getting my nose repaired by their sister company, But with urging from my daughter-in-law, I went through with it all and I'm very happy I did! Being across the world in an unfamiliar place, and getting so much work done at once was overwhelming both emotionally and physically, I definitely advise bringing some kind of familiar support if you are traveling for their services. I still have a long recovery ahead of me with my nose (expected) but the dentists at Dentspa came through with a beautiful finished product! Being that I'm nearly 60 years old, I did not want super fake looking bright white, boxy teeth. I picked the 2nd whitest color and it looks very natural. I also wanted to retain the look of my front teeth being slightly oversized and that was accomplished too! I am very happy with what looks like natural healthy teeth. You can't possibly ask for more than that! Now I can't wait to see what my nose is going to look like! The highlight of the trip was getting to meet our translators that helped us to and from the hotel to Dentspa and the Hospital (Lea and Muhammad). They were lovely! Istanbul is also a lovely city rich in culture and history, don't be scared to explore if you are traveling for these services! Overall, I am very happy with the result! Please do your research so you can know what to expect before traveling!

March 2025

Dr. Berkay and his team has done a wonderful job. I am extremely pleased with the service I received from Dentspa. My teeth and gum were causing me so much problems and affecting my health a lot. More than anything, the professionals at Dentspa assured me that it can be fixed and also in a timely manner. From the very first appointment till the last I received professional treatment and the doctors at Dentspa have the knowledge and experience to treat even the severe problems. Thank you very much.
